Description

Dear members,

Thank you for your confirmations on the user survey questions.

We have reviewed the few additional comments received and have only taken two minor changes into the final version to allow a minimum of disruption of the survey release date.

We hope you can share the survey link to your wider networks, relevant trade associations etc.

The survey is open from today and we hope to reach a wide audience by 13 November.

As part of ongoing marketing efforts, we are requesting more members step forward as survey leaders (one per member).

Thank you for your considerations.

Kind regards

Nele Zgavc

Announcement of ISO 14001 User Survey 2021

Dear Members,

The user survey for continual improvement of ISO 14001 and ISO 14004 has been opened for completion today.

The objective of this survey is to develop an understanding of the needs of users and other interested parties in relation to environmental management systems (EMS) standards, order to inform the revisions of ISO 14001 and ISO 14004 as well as other related ISO standards. The survey takes into account key topics and perceived future challenges for environmental management, with the goal of continual improvement.

The questionnaire is intended to be completed by:

- Individuals in organizations that have implemented ISO 14001 and/or ISO 14004 (users);
- Other individuals with other working knowledge or interest in ISO 14001 (e.g., certification bodies, regulatory agencies, academia, research institutions, trade associations, industry groups, and learned societies).

On average, the questionnaire should take no more than 20 minutes to complete and responses can be saved to return to at a later time. All responses will be confidential, and individual respondents will not be identified.

The survey results will be published on the ISO/TC 207/SC 1 website.

While it is possible to use a mobile device, we recommend using a laptop or PC to complete the survey, due to the formatting of some questions.

Survey Deployment

Please distribute and publicize the user survey to all members of your national Mirror Committee or national Technical Advisory Group. We would like to request your support to spread the survey far and wide! Please see the guidance for members and survey leaders in N1649.

The survey will close on **13 November 2021**.

Please use the following link: https://rit.az1.qualtrics.com/jfe/form/SV_ezWLovidsdRn7Lw

Aside from English following languages are available: Dutch, French, German, Japanese, Spanish, Swedish, Portuguese, Polish

Thank you for your participation and support.

Kind regards

Nele Zgavc
Committee manager ISO/TC 207/SC 1
